Dont act so suprised  
I can see inside  
behind those eyes  
and I wish I could change you  
for once in your life.

You dont even care about...the things  
that once meant so much to you anyway.  
You dont even care about...the things  
that once meant so much to you blown away.

I can see you lie  
I can see you inside  
behind those eyes  
and I can tell you what's wrong  
for once in your life.

You dont even care about...the things  
that once meant so much to you anyway.  
You dont even care about...the things  
that once meant so much to you blown away.

I know why  
you feel this way  
black and grey  
inside out  
I know why
