This young G, girl he too cool  
This young G, come to cut the fool  
This young G, come to take 'em to school  
This young G, they call him Slimm

This young G  
This young G, come to cut the fool  
This young G, come to take 'em to school  
This young G, they call him Slimm

Snap like gator jaws on kangaroos, so listen up and pay  
yo' dues  
Who's that Slimm, I come to change the rules  
A-town new big lick comin' through wit' a slick click and  
da Calhouns  
I drop hits that'll make you move

I got these Dre trek flows for the pesos and if  
This rappin' don't work it's back to the trees and the  
yaeyo  
Break out the scale beams and digitals street twerk, ya  
know  
We live dreams so get on down

This young G, girl he too cool  
This young G, come to cut the fool  
This young G, come to take 'em to school  
This young G, they call him Slimm

This young G  
This young G, come to cut the fool  
This young G, come to take 'em to school  
This young G, they call him Slimm

Young gun two on the waist  
When I hang 'em don't speak to strangers and I'm  
quick to bang 'em  
South side lone ranger, now who's in danger  
Don't like to rub or hunch, girl, I never save 'em

Stay fresh to sport the purple label

Calhoun jeans for all the work in my stable  
Blowin' of dro and bottle crop, buck wit' the slalom shot  
And slide to the crib wit' shawty wit' her bottoms hot

This young G, girl he too cool  
This young G, come to cut the fool  
This young G, come to take 'em to school  
This young G, they call him Slimm

This young G  
This young G, come to cut the fool  
This young G, come to take 'em to school  
This young G, they call him Slimm

Just a nighthawk flippin' wit' the lights off ridin' in a nice  
hog  
Trickin' ain't the right 'cause no if, ands, or mights dog  
I keep mine clutched close to my nuts  
I got the guts to do it

Been through it trigger play ain't nothin' new  
Slimm known to cut a fool if ya actin' rude  
Respect my folks or see my 4, wouldn't wanna be my  
foe  
Toe to toe it's you on the flo', come on

This young G, girl he too cool  
This young G, come to cut the fool  
This young G, come to take 'em to school  
This young G, they call him Slimm

This young G  
This young G, come to cut the fool  
This young G, come to take 'em to school  
This young G, they call him Slimm

This young G, girl he too cool  
This young G, come to cut the fool  
This young G, come to take 'em to school  
This young G, they call him Slimm

This young G  
This young G, come to cut the fool  
This young G, come to take 'em to school  
This young G, they call him Slimm
