I was just a boy  
Back in school  
Teacher teachin' me the Golden Rule  
Listen to me, boy, now understand  
Your whole future lies in your hand  
(And she was right)

Went to church on a Sunday morn  
Preacher preachin' his words of scorn  
God bless the child that's got his own  
Thought I had nothing 'til I found this bone

Gonna go blind, gonna go blind  
'Cause I do it all the time  
Gonna go blind, gonna go blind  
'Cause I do it all the time

Oh, my daddy, mister fix-it man

Always had his tool in his hand  
Said you want it done right  
Want it done well  
Grab your tool, boy, and do it yourself

Ain't no use in me pretendin'  
I can't leave myself alone  
Self-abuse is never-ending  
Since I found my magic bone

Asked my mama, go out to play  
Said it's cold out, boy, listen what I say  
Play with yourself, boy, that's the best way  
Play with yourself, you can do it all day
