Are you aiming for the next turn?
I don't know I don't know
Only going to change immediately
In zero condition

Oh
Try Try Try Try Again

Show me your seriousness
If I don't give you a hindrance
That sort of feeling

Are you all right?
There's no ally on your side

Don't get me wrong
In this situation I can't possibly think of the best
But one more chance
I'm wishing that you will take a wager

Let's get it done
Moving on for the sake of realization
Let's face it

Not just a bad person

Don't get me wrong
In this situation I can't possibly think of the best
But One More Chance
I'm sure you could hear SOS

Don't get me wrong
In this situation I can't possibly think of the best
But One More Chance
At last, you will show me, right?

Let's get it done
Moving on for the sake of realization
Let's face it
