### "Under The Radar"

Visit "[Under The Radar](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Im up against a wall  
The walls are closing in  
I hear the curtain call, baby  
And I, I watch your show begin

Im sweepin up on a roof  
The roof is caving in  
I take your space but im folding in  
back down on the turf again

What if im losing my sense of who i am  
come and drag me home  
Im slippin under the radar  
before too long  
What if im losing my sense of reality  
come and rescue my last  
Im slipping under the radar  
and into the past

Im swimmin in this lake  
The lake is draining out  
I try to go against the current but  
no one gonna help me out

Im sweepin up on a roof top  
the roof is caving in  
i take your space but im folding in  
back down on itself again

What if im losing my sense of who i am  
come and drag me home  
Im slippin under the radar  
before too long  
What if im losing my sense of reality  
come and rescue my last  
Im slipping under the radar  
and into the past

What if im lyin, (what if im lyin)  
I wanna find love (I wanna find love)  
I wanna find life (I wanna find life)

What if im lyin (what if im lyin)

What if im lyin to you right now (what if i lie, what if i lie)  
What if im lyin to you right now (what if i lie, what if i lie)

Im up against a wall  
the walls are closing in  
i heart your curtain fall  
i watch your show begin

Im up on a roof top  
the roof is caving in  
i take your space but were folding in  
back down on itself again

What if im losing my sense of reality  
come and rescue my ass  
Im slipping under the radar  
and into the past  
What if im losing my sense of who i am  
come and drag me home  
im slippin under the radar  
before too long  
and what if im losing my sense of direction  
and your downl might not find my way back to your  
house  
im slippin under the radar  
under the radar  
What if im losing my sense of reality  
come and rescue my ass  
Im slipping under the radar  
and into the past

What if im lyin  
(what if i lie, what if i lie, what if i lie)  
What if i lie  
(What if i lie, what if i lie, what if i lie)  
What if i lie here to you right now  
(what if i lie, what if i lie, what if i lie, what if i lie)  
What if im lyin to you right now  
(what if i lie, what if i lie, what if i lie, what if i lie)  
right now, right, oh,  
[basically continues]
