Sitting here alone,
at this one stop train station.
With nothing to keep my mind at bay.
But the smile on strangers faces,
and the moment when I saw your eyes,
peering through that frosted window.
I swear I felt this scarf, get tighter,
around my neck around my neck.
I swear I felt this scarf, Get tighter,
around my neck around my neck.

And now I just sit here waiting, waiting.

Now it seems that I
don't even have to try to
keep your mouth shut.
And you know that I,
would do anything just to hear you scream
and break the silence at the top of your lungs.
Yeah breaking the silence with you is like
pulling my teeth out.
(pulling my teeth out.)
Yeah breaking the silence with you is like
pulling my teeth out.
(pulling my teeth out.)

And now we just sit here waiting.

Now were spending,
this years holidays alone.
Nothing left to keep us warm,
nothing left to keep us warm.
(2x)

But the fire that burns in our guts,
and we can count the dots.
As one by one their lovers fall.
As one by one their lovers fall.
(2x)

And crash into the clouds.

Exploding in the air.
As the earth opens up beneath,
to swallow their empty corpses.

Now were spending,
this years holidays alone.
Nothing left to keep us warm,
nothing left to keep us warm.
(2x)

But the fire that burns in our guts,
and we can count the dots.
As one by one their lovers fall.
As one by one their lovers fall.
As one by one their lovers fall.
As one by one their lovers fall.
As one by one their lovers fall.
