"Never Going To Kill Us"

Visit "[Never Going To Kill Us](#)" on MotoLyrics.com

We have come from far away
Not to die today
Rage relentless we will crawl
Till we conquer all we've been drowned in the well
Left to die/burned in hell
But you just don't get the message:
We are immortal so
You can make us suffer but you're never going to kill us
Take our food and water but you're never going to kill
us

God Damn get away, victory today
We been beat down bled away
Immortality

Snuff the aphid gas the ant
Asphyxiate the rat show the nuisance to it's end
But beware you see my friend
We've been sold down the line
We've been buried alive
We've endured humiliation for the very last time
so

God Damn get away, victory today
We been beat down bled away
Immortality

Try to stop us You can't atop us
You were wrong before you tried to drop us
Bullet proof is in the pudding, putting us on equal
footing

War! War!/ Rise! Today!

You thought you could break us
Took all you could take but
You can make us suffer but you're never going to kill us
Calculate our slaughter but you're never going to kill us
