Reggae got soul, got so much soul  
Reggae got soul, got so much soul

Listen to the beat, move your dancing feet, yeah  
Rock your bodyline, move in time

You don't have to salute while I'm passing through  
Listen to the beat, move your dancing feet, yeah yeah  
Rock your bodyline, right in time

This reggae got soul, got so much soul

Grandmother can do it, grandfather can do it  
Do it and feel alright

This reggae got soul, got so much soul  
Reggae got soul for the young and old

Reggae got soul, got so much soul  
(Makes me want to sing and do all kinds of crazy things)

Reggae got soul for the young and old  
(When I listen to the music)

Reggae got soul, got so much soul  
(Makes me want to shout "Oh glory hallelujah!", makes me feel alright)

Reggae got soul for the young and old  
(Makes me feel alright in the day or the night)

Reggae got soul, got so much soul  
Reggae got soul for the young and old  
Reggae got soul, got so much soul  
Reggae got soul for the young and old...
