If you can breathe then make it deep and simply let it
out
Because the suns coming up and we have to skip town
I cant undo
What I've done has consequences that I buried with the
truth

Im tired of this panic attack
Im tired of feeling helpless and frustrated
Im tired of looking foolish

So lets reopen this chapter
And of course I brought a pen
To fill in all the blanks for you
On nights I never wrote you back
I made you think that I was better then that oh no

This ones for you
Id rather lie awake then keep on dreaming
Im letting go
Id rather die alone then keep on fighting

Im tired of this panic attack
We are fucken finished and I'm over it
Please stop asking about me

So lets reopen this chapter
And of course I brought a pen
To fill in all the blanks for you
On nights I never wrote you back
I made you think that I was better then that oh no

This ones for you
Id rather lie awake then keep on dreaming
Im letting go
Id rather die alone then keep on fighting for you

Baby no one cares
This isnt a catwalk and the blond in your hair makes
you look
Cheap cheaper then the filthiest brothel

You'll probably end up if you keep that head down
And baby I could care less
But the games that you've been playing spell S-T-R-E-S-
S

And I don't need it
So quit while you're ahead
I know all your secrets
And I've got some pictures that might keep your mouth
shut

So quit while you're ahead
