Berg, Casha, let's go

So many times, you and I  
Makin' love through the night  
The way that you make me feel  
From the wrong to the right  
All the pain, you and I  
You know that I'm down for real

If you  
(Only knew)  
If you  
(Only knew)  
The things that you can make me do

If you  
(Only knew)  
If you  
(Only knew)  
The way that I feel for you

It goes fresher than whoever, shawty, yous a star  
Must've fell straight from heaven, she then landed in  
my car  
Standin' by the bar, conversation smart  
Felt like my first time, hittin' 106th in park

Back hella arch, legs super thick, you know the type  
That you can't wait to go and spread apart  
Had her from the start, took it to the waist  
Where her top came down for I threw it out of car

And still to this day, I hop up in a Coupe  
Hear records on the radio like "I'll do anything for you"  
So tell me what am I to do, I lost one life, Jay  
So I let this song cry for you

Yeah, show canceled the first season  
No Martin, no Gena, guess only did it for you, mami  
I'm right here where you need to be  
And when I lost you, I lost a piece of me

So many times, you and I  
Makin' love through the night  
The way that you make me feel  
From the wrong to the right  
All the pain, you and I  
You know that I'm down for real

If you  
(Only knew)  
If you  
(Only knew)  
The things that you can make me do

If you  
(Only knew)  
If you  
(Only knew)  
The way that I feel for you

It goes ever since you left me  
My pride won't let me dial up the phone, my pain is so  
heavy  
Back seat action, need you off in the Chevy  
Remember me I put you on the ice like reski

Wait let's see, how you gonna next me  
Ma, I gave you everything minus the wedding ring  
Remember that, yeah, but back then we was seventeen  
And now I'm twenty two, you turnin' twenty three  
(Go)

X said if you love something let it be  
And if it never comes back it never was for you  
Yeah, I'm sitting here like where my love's at  
Helped me with the rap but didn't see me sign the  
contract for you

Yeah, now you see me on the screen  
Close my eyes for a second still see me in my dreams  
for you  
Mami, I'm right here where you need to be  
And when I lost you I lost a piece of me

So many times, you and I  
Makin' love through the night  
The way that you make me feel  
From the wrong to the right  
All the pain, you and I  
You know that I'm down for real

If you

(Only knew)  
If you  
(Only knew)  
The things that you can make me do

If you  
(Only knew)  
If you  
(Only knew)  
The way that I feel for you

If you only knew  
(What I do)  
For you  
If you only knew  
(How I feel)

If you only knew  
(I'll do anything, boy, I'll do anything, boy, I'll do  
anything for you)  
If you only knew  
(Cause you drive me so crazy, girl)  
Boy, I'll do anything for you

Ain't know what it is  
YB's still up, my girl, Casha  
For real

If you only knew  
If you only knew  
The things that you can make me do, me do

And if you only knew  
If you only knew  
The way that I feel for you  
Oh, hey, hey hey for you  
Hey, hey hey for you  
Hey, hey hey for you
