Chorus

Life is too short to be sitting all around
I'm trying to get a buzz & I'm not coming down
Just live it up up, up go ahead & live it up up, up
Tell me where the party cause I'm trying to get wild
I'm trying to get it in ion't wanna leave now
Just live it up up, up, go ahead and fill ya cup up, up, up

Pass me a bottle, I'm chillin' with a model
& if I get lucky the chick might go down and swallow
I'm chillin' with my crew you already know our motto
We just live for today cause we might not be here
tomorrow
I'm just doing what I wanna, they said I couldn't make it
but
I'm living how I wanna, I put that on my momma, I anit
going down like a
Sucka
Never tricking on no female that is a bussa, can't trust
her, unn- I'm just
Trying to live it up, we trying to see a mill, before they
bury us, put my
Fam in the hills, & all that jazzy stuff, I don't care how
you feel, it's
Nothing new to us-- I'm just trying to live it up, got
bottles after
Bottles yeah you know we pouring up, chillin' with a
couple chicks & I
Think they throwing up, we can do this all again cause
we gotta live it up

Chorus

Life is too short to be sitting all around
I'm trying to get a buzz & I'm not coming down
Just live it up up, up go ahead & live it up up, up
Tell me where the party cause I'm trying to get wild
I'm trying to get it in ion't wanna leave now
Just live it up up, up, go ahead and fill ya cup up, up, up

(ABE)

Live it up (up) fill ya cup (up)

get fucked up roll your blunts up,
I'm trying to hit a party so you know what's up,
Bad bitch say she naughty so you know imma cut,
Gotta fresh cut, looking clean when I'm on the scene,
You know I'm with the team, used to be kush now
everybody sipping lean, do what you wanna,
Who am I to intervene, living out the dream hopping
out the limousine,
All eyes on me, cause they recognize a G,
And they see how we roll so they wanna ride with me,
Had a few sips see I'm kinda tipsy, all over the place,
I don't got breaks, imma live it up, mash on the gas
Tell them niggas catch up, only live once so imma
Do it big, imma get it in, this is how I live

Chorus

Life is too short to be sitting all around
I'm trying to get a buzz & I'm not coming down
Just live it up up, up go ahead & live it up up, up
Tell me where the party cause I'm trying to get wild
I'm trying to get it in ion't wanna leave now
Just live it up up, up, go ahead and fill ya cup up, up, up
