Chorus

(Oooo ahhh oooo woos
When we switch positions baby
When I get all up in it X4)

Watchu doing with all that on go ahead and take it off
Let me rub this oil on make ya body supa soft
Come and lay up on my bed next to the rose petals
Who cares about the sheets we on a different level
You had a long day? that makes the two of us
So how about we take our time we anit gotta rush
Let me slowly kiss ya neck and work my way down
No GPS needed I know my way around we can do it like
a rodeo
Or with the lights on I know you like to scratch so let me
put some ice on go ahead turn the music up I think the
neighbors listenin'
Plus they kinda nosy all up in people business but we
anit finished we going till tomorrow and when you wake
up
When you wake up you might not know just who you are
Lets get it in and do it right
Put cha trust in me baby imma do you right

Chorus

(Oooo ahhh oooo woos
When we switch positions baby
When I get all up in it X4)

Umm let me go ahead and lay you down
Massage you from yo shoulders cause you worked a
couple rounds
Sweat drippin' sittin right between yo breast
Gotcha hair let down let down I swear you undressed to
impress
Pretty smile that's all I see you know you super bad it's
coming onto me fulfill yo fantasy's that's what I'm here
to do
And make sure what ever go down never leave this
room
What it do imma do yo body good imma have you

nappin' after tappin'
Yeah I probably would we can get the camera out
Lets go and make a movie wanna do a quick scene
Over by my my my my jacuzzi I'm just playing unless
you wont to
I like it when you play hard to get knowing that chu wont

I only wont chu we can do this all again
Maybe we can upgrade to be lovers and friends
