Chorus

(Stand up for what is right
Never back down yeah we gone fight
We can stay at the capital all night
Until we go and get it right WISCO! X4)

Stand up for what is right never back down
Yeah we gone fight what about the teachers what about
the kids
You gone make it worse then it already is
How they gone live how you gone make decisions
without even considering
Other peoples opinions and situations that they in
If you want a future then you need an education
Teachers get low pay as it is up late grading papers
They underestimate all the things that they do
Working over time off clock no revenue it's hard times
We trying to make it through we gone see better days
At least I hope we do he cutting benefits but really was
the point he taking people rights- since when was this
the joint?
Wisco we stand up for what we ba-ba believe in
And refuse to let somebody go change them
Yeah we gone ride it out till the end
Wisco pride in me imma rep it to the end

Chorus

(Stand up for what is right
Never back down yeah we gone fight
We can stay at the capital all night
Until we go and get it right WISCO! X4)
