I know you going threw a lot but keep ya head up  
Ya man trippin always trying to put his hand up  
I know you fed up and you need to get out  
You sick & tired of the drama in the damn house  
You try to reach out but nobody listen  
You cry inside you don't know what's missing  
He say he love you he never wanna leave ya  
You never knew he'll be a woman beater  
I know you feel all trapped in a box  
You thinking to yourself when is it gone stop  
Every time he come home ya heart drop  
You hoping to yourself that he don't be drunk  
I know you feel sometimes that chu hopeless  
But baby girl you gotta hit the road quick  
Yeah that's the only way to solve it  
Get his ass locked up resolve it
