Just drop all the business (Just drop all the business)  
Ohhhhhh oh oh oh oh...  
Just drop all the business (Drop all the business)

Since I saw you first  
Tried to play it cool  
Trying hard to not  
Turn into a fool  
I was taken back by the way you looked at me  
Can I assume that it was you who would notice me  
Have you ever seen a guy stare at you with such  
mystery  
Each and every day I grow more confused  
Why do you fake on my inquiry

I guess I found a brand new weakness  
Oh what do I do all I want is you  
Why you even have to be so cruel

Just drop all the business of the games you play,  
everyday  
You know that I'm the one so it puzzles me why you  
can't understand this  
Just drop all the business of the things you say, tryin' to  
make me pay  
You know that I'm the one so it puzzles me why you  
can't understand this

Uh...Townsend...watch this...

Oh what do I see  
Baby can this be  
Was that a glimmer from you eye that you shot at me  
Was that a smile that you sent me  
Givin' myself the courage to present thee  
I think I'm gonna walk your way  
Tell me girl will we watch the sunset lay  
I wanna take you with me want you to kiss me  
Find out if you're likin' me

I guess I found a brand new weakness

Oh what do I do all I want is you  
Why you even have to be so cruel

Just drop all the business of the games you play,  
everyday  
You know that I'm the one so it puzzles me why you  
can't understand this  
Just drop all the business of the things you say, tryin' to  
make me pay  
You know that I'm the one so it puzzles me why you  
can't understand this

Townsend...woah yea  
Townsend...  
Townsend...  
Why don't you get this  
Townsend...

Bridge:  
Girl you kissed my lips with promises  
But you burnt my mouth with lies  
If you listen to my words baby then you'll understand  
Ohhhhhhhhhhhhhhh...

Just drop all the business of the games you play,  
everyday  
You know that I'm the one so it puzzles me why you  
can't understand this  
Just drop all the business of the things you say, tryin' to  
make me pay  
You know that I'm the one so it puzzles me why you  
can't understand this

Just drop all the business of the games you play,  
everyday  
You know that I'm the one so it puzzles me why you  
can't understand this  
Just drop all the business of the things you say, tryin' to  
make me pay  
You know that I'm the one so it puzzles me why you  
can't understand this
