I am not aware of all the reasons  
I am not deciding the results  
Sanctioned through the principles  
Autonomously blessed  
Moving close to get a clearer view

Mystery's the key to all religion  
Power is the key to every war  
Time has taught me not to wait  
What is mine I'll take  
Eons of our past won't be returned  
I was there to recognize the victim  
Cold and dry another has been killed  
Blundered by the greed of man  
Aftermath descends  
Our time is slotting out of reach

I don't even want to try  
To become the one  
That will save your halo  
Everything that I deny  
Every time that I lied  
Aware of our failure

I'm not gonna follow your decision  
It is the position I retain  
Everything once born will end  
Ushers be our name  
Bury me to set me free of shame  
This is not the dust that we once came from  
What we are is how we will return  
The sun is punishing our land  
Salt turns into sand  
What we had in common has been cursed

I try not to hear  
The guilt fading in me  
You are the sign  
Harvesting what is not yours  
Soon won't be there any more

I don't even want to try  
To become the one  
That will save your halo  
Everything that I deny  
Every time that I lied  
Aware of our failure  
[x2]

There's a new day  
What we should share is noticed  
What we inherited  
The erasure of a life  
Once so vital  
Now dissected and dry  
Throw the first stone  
Then hide your hand  
While pursuing your dream  
Poisoning the essence of it all  
I don't even want to try  
To become the one  
That will save your halo
