(Boss)

It's Ram, baby

Come back, back

She got my heart racin' on a race track, track

She got me running through the traffic signs

Speedin' through the street lines (Lines)

Now that she's gone, I feel like I don't need life

Vroom, she gone, vroom vroom

She gone, vroom

She gone, vroom vroom

Can't tell the brake from the gas

I can't even get my feet right, vroom

On the road, pitch black, but I don't need lights

Vroom, she gone, vroom vroom

She gone, vroom

She gone, vroom vroom

Hopped in the lake and now it's time to go some

'Cause we got through arguing

I gotta find my boo

I gotta get my baby back

I can't let her leave just like that

'Cause if I do, which one of you gon' tell me where she
gon' stay at, at?

Head in the clouds

Got my mind all messed up

Me without your smile

Got me feeling all drugged up

I'm a believer doing ninety on the freeway

Copper right behind me but I do not care what he says

Baby, I'm a boss

Makin' moves like a shot tire

Am I really Chris Carls?

How the hell am I gon' stop 'em?

Transmission slippin'

Who I'm missin'?

Girl, it's you (You)

Them chicks is strippin', screw them chick, girl it's true

(True)

Mistakes always made
But you know they say that you learn
Let's get it right
Why can't you just hit a U-Turn?
Yeah, the R for Reverse
Rollin' with the windows down
Not so bad that it hurts

She got me running through the traffic signs
Speedin' through the street lines (Lines)
Now that she's gone, I feel like I don't need life
Vroom, she gone, vroom vroom
She gone, vroom
She gone, vroom vroom

Can't tell the brake from the gas
I can't even get my feet right, vroom
On the road, pitch black, but I don't need lights
Vroom, she gone, vroom vroom
She gone, vroom
She gone, vroom vroom

What was I thinking?
How could I do that to you?
The mother of my kids
That was supposed to be you
I gotta get my baby back
I can't let her leave just like that
'Cause if I do, which one of you gon' tell me where she
gon' stay at, at?

Ridin' down the freeway
Chasing down my heart
I don't care what he says
We fallin' apart
Layin' in my bed
All alone in these sheets
Thoughts runnin' through my head
Is she creepin' in these streets?

I need my baby back
Tryna lo-look all on MapQuest
No navigation could find her, so I'm upset
Fanned on the prude [?]
Alone, me and you
[?] keep us on the load
What the hell are we gon' do?

I can't take it

My heart's racing
Just hit a wall
So I guess my heart's breaking [x2]

She got me running through the traffic signs
Speedin' through the street lines (Lines)
Now that she's gone, I feel like I don't need life
Vroom, she gone, vroom vroom
She gone, vroom
She gone, vroom vroom

Can't tell the brake from the gas
I can't even get my feet right, vroom
On the road, pitch black, but I don't need lights
Vroom, she gone, vroom vroom
She gone, vroom
She gone, vroom vroom

Doin' ninety around the curve
I think that I'm a crash
She was my first love
And definitely my last (Last)
She gone (Gone)
She gone (She's gone)
She gone

I would've killed for this girl
And wanted it to stop, fell
Just hit a wall
Wearing no seat belt like
She gone (She's gone)
She gone (She gone)
She gone
She's gone

Hey, look baby, it's Ram
It's supposed to be me and you, you know what I'm
talkin bout
It's Ram baby (Boss)
Come back, back
She got my heart racin' around a race track, track
Come back, back
She got my heart racin' around a...
I'll always love you like...
I'll always love you like...
Boss
