I really cant explain  
What just came over me  
Not joy or pain  
But more like destiny  
Hypnotized by  
The way you sway so endlessly  
As if you could fly  
But were hiding your wings

1 - When our eyes first met  
It felt so ill  
The sky turned black  
And the world stood still  
And I fell  
This could be my lucky day  
If you never fade away

Repeat 1

Oh you said it cant be thought  
In another lifetime  
Oh how we could soothe  
If we, we could combine  
Like the moons and stars  
We can make the night glow  
You and I we are  
So invincible

Repeat 1 (2x)

Could this be true  
The one that Ive been dreaming of  
Has come along  
For me to love  
Whoa, whoa, whoa  
Whoa, whoa

Repeat 1 (3x)

When our eyes first met  
I really cant explain

I really cant explain, yeah  
I really cant, cant explain
