I met you on the back of the bus  
You told me your name  
You told me you were down on your luck  
Well that makes two of us

We drove around from block to block  
We never said a word  
Cause words could only make it hot  
It had to stop

Cause I'm in love with somebody else (x2)

I saw you at the softball park  
(?)  
Watching in the dark  
And that's the way it was

Cause I'm in love with somebody else (x2)

If the sun shines today  
There would never be enough time to say  
What words can't explain  
We're stuck in the middle, stuck in the middle, stuck in  
the middle  
Of our fate

I met you on the back of the bus  
You told me your name  
You told me you were down on your luck  
Well that makes two of us

Cause I'm in love with somebody else (x2)
