Lately she's been picking fights, dropping hints and
just last night

I caught a tear as she slipped off to sleep

She's not here but she's not gone

I guess she must be waiting on the kind of man I
promised her I'd be

(Chorus)

As any fool can see

She's gonna cross that line

She's got leaving on her mind

And it's too late but what keeps killing me

Is knowing I've been blind

As any fool can see

—

How long did I think she'd stand for me to be the kind
of man

That came and went just as I dang well pleased

While she sits at home alone

with fears and feelings of her own

Lord knows goodbye would bring me to my knees

(Repeat Chorus)
