We are freaks we follow the code of freaks

We are freaks stand back and that's that

We are freak we fuck who we please and do what we
choose

We look bad we're not disease or confused

We are freaks we are butch we are fem

We are freaks look at him look at them

We are freaks I know this guy who can suck his own
dick

And my mother has a friend who has 3 tits

T-t-t-true story

We are freaks we follow

We are freaks stand back and that's that

We are freaks we fuck who we please and do what we
choose

We look bad we're not disease or confused

One of us one of us

One of us one of us

One of us one of us

One of us one of us

One of us one of us

One of us one of us

One of us one of us

One of us one of us

One of us one of us

One of us one of us

One of us one of us

One of us one of us

And then I thought I was a freak when I shaved my
head and pierced my dick

Walks like a lumberjack and talks like a lady

With the flannel shirt, steel toe boots, Levi's faded

All hail

She's the king, she's the queen

All hail of the freaks, all the freaks on the scene

From the Bows of the Bowery to the bustle of Bombay

She's the bearded lady of Avenue A

That's the way God planned it

That's the way

That's the way God planned it

That's the way

That's the way God planned it

That's the way

That's the way God planned it

That the way

All hail

She's the king, she's the queen

All hail of the freaks, all the freaks on the scene

From the Bows of the Bowery to the bustle of Bombay

She's the bearded lady of Avenue A

That's the way God planned it

That's the way

That's the way God planned it

That's the way

That's the way God planned it

That's the way

That's the way God planned it

That the way
