"But Anyway"

I lied and told her I loved her,
She didn't care, but anyway
I told her we'd still be friends,
And she didn't care, but anyway
I tried last week for to call her,
She wasn't home, but anyway
I think I'll spend my life alone,
I really don't care right now, but anyway
It's a state of affairs and a state of emotions
The kind of thing that you must understand
I tell you one thing; you tell me another
We walk away, maybe then shake hands
I'm quitting cigarette smoking
It's bad for me, but anyway
I don't think the TV was joking
When it told me this, but anyway
The newsman said not to sit on strange toilet seats
It's my life he's trying to save, but anyway
I found out that I've got eye cancer
Too many television waves, but anyway
It's a state of affairs and a state of emotions

The kind of thing that you must understand

I tell you one thing; you tell me another

We walk away, maybe then shake hands

Some day an answer will find us

Quite a long shot, but anyway

I think the past, the past is behind us

Be real confusing if not, but anyway

I put all my hope in tomorrow

It's gonna be great, I can tell but anyway

I see a new, a new day a dawning

I like to sleep late, oh well, but anyway

It's a state of affairs and a state of emotions

The kind of thing that you must understand

I tell you one thing; you tell me another

We walk away, maybe then shake hands
