I am not evil, baby, that is true  
I'm tossing and turning  
Lady, only for you  
My heart is burning  
But I am not evil, baby  
I swear you, lady  
Be mine tonight

Don't listen to his words, my girl  
He is evil, Dr. Evil  
And he's playing with your heart  
Don't listen to his lies, my girl  
He is bad, Dr. Evil  
For Evil is his name

E.V.I.L.!  
He wants your heart - Dr. Evil  
Don't let him take it  
E.V.I.L.!  
He wants your soul - Dr. Evil  
Don't let him break it!

You're not evil, baby, you're a saint  
But he's a devil in disguise  
Lady, he will make you faint  
Blue is no paradise  
But you're not evil, baby  
I swear you, lady  
Stay with me tonight
