"Come Around"

Visit "[Come Around](#)" on MotoLyrics.com

Like a child on the first day of school
Never thought that we could make the rules
And everything could all come true
And we'd be OK

Can't believe the things that people say
It's like they wanna hurt us every day
But we're making our own way
And there's one real thing we know

They're gonna come around, come on around, around
again
Come around, come on around, around again
Come around, come on around, around again
Come on around, around again, come around
Alright!

Never thought that life could go this way
Never thought that we could feel that way
That all our dreams could come true
On one crazy day

Everything that goes up might come down
You could lose everything you've found
What's the use of being afraid
Live for every day

And come around, come on around, around again
Come around, come on around, around again
Come around, come on around, around again
Come on around, around again, come around

Come around, come on around, around again
Come around, come on around, around again
Come around, come on around, around again
Come on around, around again, come around
Alright!
