My father said set your dreams that you want for life
A road without an ending will just get you in strife
So now I'll try to reach the sky and make my dreams
come true
And to hold me tight day and night, I think I'll dream for
you

I'll dream
Dream, dream, dream for you
I'll dream
Cause dream dream dreams come true

Now I won't lie, I'm aiming high, you're a special man
But I'll give it all I've gotta give, I'll love you all I can
Now I could win all my dreams and have them all today
But without you here beside me
I'd cry my life away

I'll dream
Dream dream dream for you
I'll dream
Cause dream dream dreams come true

I'll keep you close to my heart
If you tell me where to start

I'll dream
Dream dream dream for you
I'll dream
Cause dream dream dreams come true
