Hey, here we come, outrageous
Fun, flair, and a smile that's flirtatious
Ooo, so much to do
You may be surprised at what a girl can do

Time to live the dreams, how bad do you want it?
Put the mind to it, nobody can stop it
Hey, what do you say?
Are you thinking 'bout coming our way

And the girls are giving it the best we got
On a roll now, taking it to the top, don't stop
No way we're having too much fun
And the girls are getting down with everyone
And the girls are giving it the best we got
Come on now, taking it to the top, and don't stop
No way we're having too much fun
And the girls are getting down with everyone

You can achieve success if you've got it
Forget about all the rest, do you want it?
Hey, what do you say?
Are you thinking 'bout coming our way?

And the girls are giving it the best we got
On a roll now, taking it to the top, don't stop
No way we're having too much fun
And the girls are getting down with everyone
And the girls are giving it the best we got
Come on now, taking it to the top, and don't stop
No way we're having too much fun
And the girls are getting down with everyone
