One! Two! Three! Four!

I'm going away
But not for too long
The radio plays
My favorite song

All I know is my heart's beating
Cause you know that he's everything

I'm going away
But not that far
I'll write every day
And promise to call

I don't want to sound repeating
But you know that he's every

Thing to me, he's everything
I'm going out to do my thing
But I'll be back for him, he's everything

And while I'm away
I know it's still true
He'll hang with his mates
And sleep in til noon

I don't mean to linger on it
But you know that he's everything

I don't get the games
And things we can play
We'll long for a kiss
And make it okay

I don't want to dwell upon it
But you know that he's every

Thing to me, he's everything
I'm going out to do my thing
But I'll be back for him, he's everything

Hey!

Alright!

Come on!

Yeah!

Ow!

Thing to me, he's everything
I'm going out to do my thing
But I'll be back for him, he's every-

I'm going away
But not for too long
The radio plays
My favorite song

I don't want to sound repeating
But you know that he's every

Thing to me, he's everything
I'm going out to do my thing
I'm coming back for him, he's every
Thing and then some more, he's everything

(Laughs) Oh, that went wild.
