Who's that girl that everybody watches when she walks
by (walks by)
Who's that girl, she's got it so together and she's not
shy

Whenever we're together, the sun is shining and
there's magic in the air

Cause we're young and free
Feel like we can live forever
One, two, three
We'll always be together
L.I.F.E.
It just keeps getting better now

What's your dream, can you see it in the world that's
around you
Don't you know you can be anything that you want to

Anytime, there's always a place we can stop by (stop
by, stop by)
Walk and talk, telling stories, telling jokes, laugh til we
cry

Whenever we're together, the sun is shining and
there's magic in the air

Cause we're young and free
Feel like we can live forever
One, two, three
We'll always be together
L.I.F.E.
It just keeps getting better now

It's not about the way that you look
It's not about the clothes that you wear
It's all about the friends that you have
It's all about the way that they care

Whenever we're together, the sun is shining and
there's magic in the air

Cause we're young and free
Feel like we can live forever
One, two, three
We'll always be together
L.I.F.E.
It just keeps getting better now
