I thought you knew it all, Everything and more, Why  
trivial pursuit, Just made me feel this small,  
When tomorrow comes, You'll be leaving me behind, I  
don't learn from your mistakes, So let me have my  
time,

Let the tables turn, Together we will grow, When they  
say, I was born yesterday.

Wait let me do it wrong, So you can watch me lose,  
Don't point your finger, Cause there's nothing left to  
do,

CHORUS: Oh you'll never hold me down, I've got the  
whole world in my hands, I'm alive you can't take that  
away
