I thought you knew it all, everything and more,  
Why trivial pursuit just made me feel this small.  
When tomorrow comes, you'll be leaving me behind,  
I don't learn from your mistakes, so let me have my  
time.

Let the tables turn,  
Together we will grow,  
When they say,  
I was born yesterday.

Wait let me do it wrong so you can watch me lose,  
Don't point your finger cause there's nothing left to do.

Let the tables turn,  
Together we will grow,  
When they say,  
I was born yesterday.

Oh you'll never hold me down,  
I've got the whole world in my hands,  
I'm alive you can't take that away.
