Verse 1:

Listening to the songs on the radio  
Back when I was 13  
Playing on my machine  
And her words were right  
How I felt so inspired

Verse 2:

He was 17 and he could be a star  
Your words could change a person  
Their words just changed his mind  
Let the bad things flow  
Inhibitions go...

Chorus:

(Where did you begin?) From the start  
(Would you do it again?) Yeah I would  
(Tell me bout the end) It can all work out

Verse 3:

It only takes one person to pull you down  
But you can be the king to put on the golden crown  
Climbing up again  
When you're called insane

Chorus

Verse 4:

All it take's for you to choose the path to go  
I know that you will know it  
I know...  
Cos I've been there before  
Whatcha waiting for?

Chorus

It can all work out...
