If you think it's for you  
Know it's not  
I'm already here  
All you think I need is to be ignored

\*If you think I need that much  
Why am I here?

#Forget what I said  
Forget what I meant  
Forget everything  
Just don't remember

I am asleep  
I tried to sleep  
When you talk  
Cos when I speak  
You're never there  
And you just walk away

\*  
#

Just don't remember who I really am  
Just don't remember that I understand  
Just don't remember that I'm here

#

Just don't remember...
