It's okay if you feel cold  
Don't ever forget  
Don't you forget with what you sold  
Are you happy with an empty soul?  
Now you are left with your pot of gold

So can you see me?  
See me from up there?  
See me still happy even though I'm here...

Chorus:  
I don't need the darkness  
I don't need the emptiness  
I don't need the nightfall in my heart  
In my heart like you

It's still okay if we feel cold  
But whatever happened to the promise you hold?  
D'you miss the times when you had a heart?  
When you still smile even when life's hard...

So can you see me?  
See me from up there?  
See me still happy even though I'm here...

Chorus

Bridge:  
Ahhh... I hope you've got everything you wanted  
(I don't need it)  
Ahhh... I hope you've got everything you wanted...  
Oh...

Chorus
