Arouse you  
Let me entice you  
You do no wrong just keep on watching  
Don't want your candy shells  
Don't need no wedding bells  
And yeah, I know what you want  
And you want me baby

# You want me on top  
Baby I won't stop  
Raining in paradise  
It's raining in paradise

You are libidinous  
I am forbidden  
But it's okay you can look into my eyes  
Forget the outside world  
It's you and me now  
And yeah, I know what you want  
And you want me baby

#

You want to save me for later  
But I'm the sex dictator!
