I can barely breathe lately
I only reduce the time I need you
You never seemed to care at all
Never oh oh never

I can barely stand alone now
Looking outside, I know that you won't be there
My eyes are open, I look & I stare
Why aren't you there?

Let's destroy the forest
Let's destroy the sea
Let's destroy the oxygen
That we inhale in you & me
That is what humans do
That is what humans do
I know who destroyed my heart
It's you

Sitting alone at the dinner table
Ate quietly and crying inside
I took my time, that seems forever
Oh such a long, long time

Why did you speak when there's nothing to say?
Why did you leave, there's no door anyway?
How can you forget?
For I can't forget.. the time we shared

Let's destroy the forest
Let's destroy the sea
Let's destroy the oxygen
That we inhale in you & me
That is what humans do
That is what humans do
I know who destroyed my heart
It's you

Yeah we were all just friends
What happen in the end?
Yeah.. I pity the one who's with you...

Let's destroy the forest
Let's destroy the sea
Let's destroy the oxygen
That we inhale in you & me
That is what humans do
That is what humans do
I know who destroyed my heart
It's you
