Hush now your secret's with me
You can break but nothing's gonna change
Yeah I will, I'll be your saviour
Don't believe in what they say

Just think about the way you lived your life
About the way you try to rule the earth
About your insecurities
Try to lose the bind you have on your eyes
You're blinded by the facts that's changing
Have you asked the truth?

chorus:
If this
If this is
Is the way to be
To be free
To be tied to a name
It's his name
Man, it's all the same

What if the way I chose was your way?
The way you want is my way?
A part of me in you
Makes us one not two
Goes beyond the color of my skin
Beyond the name I was born with
Try not to be insane
Have you asked the truth?

Chorus

Have you asked the truth?
Cos we are surrounded by all the
Fakes and lies and false pretense
Let me out of here
