Yeah, yeah  
I'm not here for you to hurt me  
To take my joy and receive your pain  
I will not stand and be disrespected  
And have you call me out my name  
Don't take my heart  
And tear it apart  
(Chorus)  
For I am God's blessing  
And I am your gift sent from above  
I was made for you to love me  
And I am here for you  
(For you to love)  
For you to love  
And remember this, I am the same woman  
You prayed for  
I'll hold your hand  
And make your life worthwhile  
How can you hold me  
Then abuse me boy  
(How could you)  
When I am the mother of your child  
(Chorus)  
I'm standing here to give you what you need  
(To give you what you need)  
But if you can't love Him you can't love me  
(Chorus)  
For you to love  
For you to love  
For you to love me  
I am blessing  
God's blessing  
Let's stay in love  
Let's pray together  
Let's stay together  
So we can stay together  
(Chorus)
