All for you
Everlasting love forever skies of blue
All in your heart
Never ending just a means for start

Comfort in your eyes for the warmth inside your smile
Faith's done gone astray
It was you who made living all worth while
Oh, I thank you my child
It was you who made living all worth while
Oh, I thank you my child

With the touch of your hand
Amidst confusion I can see enough to understand
All my fears repressed
Oh, lovin' you child, it's the best

Comfort in your eyes for the warmth inside your smile
Faith's done gone astray
It was you who made living all worth while
Oh, I thank you my child
It was you who made living all worth while
Oh, I thank you my child

You're all and everything to me
'Til the end of times you know, you'll always be
Ain't no second guess
Oh, you put my worried soul to rest
