Setting out
city in your sights
You want an overview
of the underground
The pressure's up
so your feelings rise
You've got to hit that peak
before you crash back down

You've got to believe
You've got to believe
You've got to believe
In a heartland

All mixed up
in the heartland heat
A chemistry
of commotion and style
You're thrown in
You've got to lose yourself
before you find yourself
back in exile

You've got to believe
You've got to believe
You've got to believe
In a heartland
In a heartland

You've got to believe
You've got to believe
You've got to believe
You've got to believe
In a heartland
In a heartland
In a heartland

I said You've got to believe
In a heartland
