We could be ..so good, so good, so good
And it would be ..all good, all good, all good
If only I ..I could, I could, I could
You make it sound ..so good, so good, so good

Hey girl do you mind,
If i let you know
Just how I feel...(just how I feel)
Didn't need anyone
Atleast uptill now
But I've found that i need and want you around
How crazy it seems
These feelings to me
Feel so unreal (ooh so unreal)
And I really hope that you feel the same way
Come share my world
You know we'd be..(soo)

We could be ..so good, so good, so good
And it would be ..all good, all good, all good
Funny how ..I could, I could, I could
Make it sound ..so good, so good, so good

We could be ..so good, so good, so good (we could be
soo goood)
And it would be ..all good, all good, all good (soooo)
Funny how ..I could, I could, I could (woahhooo)
Make it sound ..so good, so good, so good

You say you needed me
And everyday you're wishin you could be with meee
So why we wastin time
Lets give us a try
You'll never know (knoooooww)
Coz from the moment when I..
Met you I could tell that there was somethin there
The chemistry between us..
No-one could compare
To what I'm feelin here
Gotta let you know
That we could be so good babe

We could be ..so good so good so good (we could be
soo goood)
And it would be ..all good all good all good (soooo
good babyy)
Funny how ..I could I could I could (you and me babe)
(I just wanna be your everythin)
Make it sound ..so good so good so good
We could be..
Us holdin hands
Us makin plans
Can you feel it baby (ooohh)

If only I
I could I could I could (make us so so good)
Yeh yeh yeh yeh yeh yeh yeh yeh yehhh
