ladies and gentlemen your attention please  
we are here to mobilize an infantry  
our army is approaching but not looking to fight  
no we are only trying to light up your night life

so if your pushin paper nine to five  
monday, friday on the grind  
and your about to loose your mind  
get in line  
cause we're about to storm the gates  
get it poppin in the place  
make em hear us when we say  
when we say

we came to party hey  
we came to party hoo  
we came to party hey  
and if you aint down with that then let me show you the  
door

we came to party hey  
we came to party hoo  
we came to party hey  
so come on lets go

we're comin through your town  
we're gonna shut it down  
uh oh uh oh uh oh  
its gonna get loud tonight

(HEY) its gonna get loud tonight  
(HOO) shut down this town tonight  
(HEY) its gonna get loud tonight  
(HOO) shut down this town tonight

Now we're through the door the only thing I wanna see  
Is a sea of party people rockin with me  
If you need to loosen up go grab yourself a drink  
cause this is not the time or place you wanna think  
about

pushin paper nine to five

monday friday on the grind  
boss is bitchin all the time  
let it go  
cause the speakers bleedin bangin beats  
that you can hear from down the street  
if you need to follow me  
here we go

we came to party hey  
we came to party hoo  
we came to party hey  
and if you aint down with that then let me show you the  
door

we came to party hey  
we came to party hoo  
we came to party hey  
so come on lets go

we're comin through your town  
we're gonna shut it down  
uh oh uh oh uh oh  
its gonna get loud tonight

(HEY) its gonna get loud tonight  
(HOO) shut down this town tonight  
(HEY) its gonna get loud tonight  
(HOO) shut down this town tonight

we came to party hey  
we came to party hoo  
we came to party hey  
so come on lets go

we're comin through your town  
we're gonna shut it down  
uh oh uh oh uh oh  
its gonna get loud tonight

(HEY) its gonna get loud tonight  
(HOO) shut down this town tonight  
(HEY) its gonna get loud tonight  
(HOO) shut down this town tonight
