

Zao "Ember"

Visit "[Ember](#)" on MotoLyrics.com

My sight finally returns
Only to see my hands covered
With the innocent blood

Of those I stand before as an example
And I hold this ember in my heart
It reminds me of who I once was
It's the only warmth that I know

Ember of your faithfulness
Ember of your still small voice
Ember of embracing arms
Ember of rebirth

To you my king, to you my king
I offer up this ember
For the wind of your spirit to consume

Consumed by fire
(Consumed)
Consumed by fire
(Consumed)
Consumed by fire
(Consumed)
To purge their blood from my hands
