Suspension, suspend
Wires from the ceiling extend
Suspend, suspension
Your teeth grinds from the tension

When the door breaks
You are found suspended high above the ground

Suspension, suspend
Death took my old best friend
Suspend, suspension
Your life broke [Incomprehensible] attention

Suspension, suspension
You grind your teeth from the tension, from tension
You are found suspended high
Above the ground encased in wires

What's this?
Death came for you
He does not respect, the virtues
Suspension, suspend
Wires from the ceiling extend

Your teeth grind from the tension
Wires from ceiling extend
[Incomprehensible] rotten
Watching peige's rotting

When the dawn breaks, you are found suspended high
Above the ground, encased in wires
When the dawn breaks, you are found suspended high
Above the ground, encased in wires
When the dawn breaks

When the dawn breaks
[Incomprehensible] you
Lying dead, suspended, by wires, by wires
Suspended by the suspension of wires
