You think because you bought the record
You read a list of thanks
You can judge our lives

You think because you bought the record
You read a list of thanks
You can judge our lives a favor we provide

Little forum boys With your polished cyber toys

I read your bucket comment Your three piece bulliten
Put pout, boo hoo
Talk talk, put boo hoo hoo

How is our identity working out for you

It's funny how you justify me on opinion
An idea that I do this for you DXC boy fire kid
You know who you are

We wrote this song for you, for you, for you, for you
We wrote this song for you
