(hold my ground)

I saved your letters and I put them in a box
I kept the flowers that you gave to me on valentines
I kept a secret star hidden in my soul
Every word you said, I store inside my heart

Chorus: When your words fall down
I drop to my knees with my head in my hands
When my words fall down
Its hard for me to hold my ground (hold my ground -
echo)

The many walks we took, the times we met in our
dreams
Behind the waterfall, we go to exchange our smile
I cherish all of these from the way you laugh to the way
you break
To the way you wrote my letters, that you gave to me

Chorus:
I'd like to think that you will change your mind
It will be the same until the end of time,
Am I a fool for holding on
I wont let go I will keep holding on to you, only you

Chorus:

I say a word in hopes that it will multiply
To form a sentence that stirs the thoughts inside your
mind
You look at me but I'm looking back at you
With both my eyes closed in hopes that it will make you
cry

Chorus: x2
(hold my ground x3)
