When i was a little child i dreamed to be a princess
when i tried to be this princess i dreamed to meet a
prince
when i was this princess i dreamed to be a queen
when i was this princess i dreamed to meet a prince
travelling from the north to the south

Travelling from the north to the south, southern stories
South to the east.
East to the west
we all looking for the best

Travelling from the south to the north, northern stories
North to the east
East to the west
were all looking for the best

When i met this prince i dreamed to be a queen
when i tried to be this queen i dreamed to meet a king
When i was with this prince i dreamed to be a queen
When i was this queen i did not know what to do with
this prince

Travelling from the north to the south, southern stories
South to the east.
East to the west
we all looking for the best

Travelling from the south to the north, northern stories
North to the east
East to the west
were all looking for the best

When i was this queen like society tell us to be
I reliezed that i was indeed i was empty inside
When i was this queen (2:30 in song hard to
understand)
I relized that i wanna be...
I wanna be, i wanna be, i wanna be me

Travelling from the north to the south, southern stories
South to the east.

East to the west
we all looking for the best

Travelling from the south to the north, northern stories
North to the east
East to the west
were all looking for the best

Dont try to be somebody else
Dont try just be...
