Under the ray of soft moonshine  
Making their way, to do sunshine,  
If only they could save their love

Been searching for a reason  
What's really killing their passion  
But if only they could say  
What's really in their mind  
I know, I know  
They will still find love

Been searching for a deep prayer  
Tried to leave this bad feeling all behind  
They fight days and nights  
And she runs away  
Peace peace of mind! Pray for peace.

Under the ray of soft moonshine  
Making their way, to do sunshine,  
If only they could save their love
