I know nothing yet about him
I just feel his love connected to mine
I can talk about him endlessly

I know he's the one of my life
I know it's the beauty of a piece of art

Where are you my love?
Far, nearby where are you
Far, nearby, oh where are you

We will be king and queen
We will talk about arts and philosophy
It can be a good day It can be a bad day
We will never ask why

Love will be our unique law
I just feel deep inside
I want you to hold me tight

Where are you my love?
Far, nearby where are you
Far, nearby, oh where are you

Where are you my love?
Are you far, are you nearby where are you
Are you far, are you nearby where are you

Where are you my love?
Are you far, are you nearby where are you
Are you far, are you nearby where are you
