(Here's a special request)

(Hope you enjoy it)

I tired to find How my heart could be so blind,

Dear

How could I be fooled just like the rest

You came on strong with your

Fast car and your class ring

Sad eyes and your

I fell for the whole thing

I don't regret for having met

Up with a girl who Breaks hearts

Like they were nothing at all

I've done it too

Now I know just what it feels like

And just like I said I have no regrets

(assorted improvs...and voice-overs
