Got no place to go
No love left for me to give

Why should I pretend I like
To roam from door to door
Maybe I'll just kill myself
I just don't care no more

I'm not satisfied
Everything I tried
I don't like the way
Life has been abusing me

Who would care if I was gone?
Who need me to care for them?

Why should I just sit and watch
While the others smile?
I just wish that someone cared
If I was happy for a while

'Cause I'm not satisfied
Everything I tried
I don't like the way
Life has been abusing me

I'm not satisfied
Everything I tried
I don't like the way
Life has been abusing me
I'm not satisfied, I'm not satisfied
